<b>Policy:</b>	<b>103.041</b>
<b>Title:</b>	<b>Commercial Driver's License</b>
<b>Effective Date:</b>	<b>1/12/22</b>

---

**PURPOSE:** To implement federal and Minnesota standards for the department's practice regarding Commercial Drivers Licenses and Commercial Motor Vehicles. In the event state or federal regulations conflict with this policy, the state and federal regulations prevail where applicable to designated safety-sensitive employees. In the event that state or federal regulations fail to provide language for a particular situation, the employee is subject to this policy. This compliance includes such examples as drug and alcohol testing; ensuring drivers obtain and maintain necessary commercial driver's licenses; and safe maintenance and operation of commercial motor vehicles.

**APPLICABILITY:** All Department of Corrections (DOC) employees operating commercial motor vehicles, their supervisors, and Human Resources (HR) staff responsible to perform or administer related work.

**DEFINITIONS:**

Commercial driver's license (CDL) – a license required to drive a commercial motor vehicle.

Commercial motor vehicle (CMV) – a vehicle or vehicle combination over 26,000 pounds; a vehicle designed to transport 16 or more passengers including the driver; or a vehicle used in transporting hazardous material that requires placards. See Minn. Stat. Chapter 171 for specific definitions and types.

Designated employer representative (DER) – an individual in HR assigned to manage the CDL drug and alcohol program for the DOC. This individual is the primary DOC contact for the State of Minnesota Drug and Alcohol Testing Plan and for the vendor.

contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver. The observations for the suspicion of drug use may include indications of the chronic and withdrawal effects of controlled substances.

Reportable accident – an accident involving either of two situations:

1. A fatality of any person involved in the accident; or
2. When the commercial driver (the employee) is cited for a moving violation of any kind when
  - a) Any involved vehicle requires towing from the scene of the accident; or
  - b) Any involved person requires medical treatment away from the scene of the accident.

Safety-sensitive function – all time from when a driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. Safety-sensitive functions include:

1. All time at an employer or shipper plant, terminal, facility, or other property or any public property, waiting to be dispatched, unless the employer relieves the driver from duty;
2. All time inspecting equipment as required by federal regulations or otherwise inspecting, servicing, or conditioning any commercial motor vehicle at any time;
