300.1002: Gate Money/Release

A. General Requirements – Gate

1. Qualifying adult offenders are required to save \$500 for assistance on their release or parole. Deductions are made from compensation during incarceration. Compensation received after release is not subject to the gate deductions. The facility must make gate money total \$100 if the offender has not saved \$100 upon release. Release violators (RVs) being released on the same sentence will not receive added state funds.
2. Offenders must be released from a state facility to be eligible for state-paid gate money.
3. Gate Exemptions
An offender may request to be exempted from saving gate money if the offender meets one or more of the criteria below. Once an exemption is approved, it will not be reversed.
 - a) Offenders sentenced to life without parole;
 - b) Offenders whose sentences will be completed after the age of 100; or
 - c) Federal offenders housed in Minnesota correctional facilities under contract.
4. Offenders determined to be exempt from saving gate money have any accumulated payroll funds deducted per the payroll deduction schedule, prior to transfer to the offender's spending account.
5. Gate money may be saved voluntarily, but cannot exceed \$500 and is subject to all gate rules.
6. Interstate Corrections Compact
Offenders housed in Minnesota are required to save gate money. No state funds are provided unless the sending state reimburses the department.

B. Spending of Gate Money

1. Driver's License/ID
An offender within one year of release who does not have sufficient funds in spending and savings accounts will have funds transferred from gate to savings to pay for a driver's license or photo ID, as long as the gate balance does not drop below \$100.
2. Upon the written approval of the warden or designee, an offender may be allowed to spend money accumulated in the offender's gate account for the following items, as long as the offender meets the rest of the criteria. Offenders must submit a kite to finance detailing the request.
 - a) Unpaid facility obligations;
 - b) Court-ordered obligations;
 - c) Educational courses;
 - d) Television, radio, typewriter, or JPay tablet only when the offender does not currently have the item in their property;

 4. Offenders must have a balance of at least \$100 in their gate account.
 5. If the amount requested would reduce the gate balance to less than \$100, the offender must have at least two years remaining until their confinement release date.
 6. Balances in voluntary savings and spending must be spent first.
 7. Offenders are limited to one approved request per 12-month period, unless the request is for a driver's license or photo ID.

 9. Offenders must be currently employed and have a positive work history for the previous six months.

 11. If approved, the offender must submit the appropriate withdrawal forms within 30 days.

C. Release

1. Offender/resident accounts are reviewed prior to the offender's/resident's release to determine the amount of gate money, if any, to be provided to the offender from state funds. Compensation paid and available, using the first in, first out (FIFO) method (assuming that the funds on deposit for the longest period are withdrawn first) must be used prior to providing state funds.
2. A release violator's gate funds are transferred into the offender's spending account and are subject to deductions for facility obligations.
3. Offenders released to the intensive supervised release program (ISR), intensive community supervision (ICS), or work release, who are eligible for gate money, are paid their gate money at the time they are released or paroled from the department.
4. Offenders whose sentences are commuted or vacated are not eligible for state-paid gate money.
5. Offender/resident accounts are reviewed prior to the offender's/resident's release for any outstanding facility obligations. Balances in excess of \$100 in gate, along with spending, savings, or hold accounts must be applied to any outstanding facility obligations.
6. Financial services staff prepare a release document stating the amount in the spending, gate, savings, and hold sub-accounts. Checks and/or cash are issued in addition to, or in

place of, release cards when maximum card amounts have been reached, or by exception when approved by the finance director or designee. Checks are not issued for less than \$1.00.

7. Offenders/residents must sign the release document verifying the amount of funds reported and acknowledging receipt of the release card, check, or cash.
8. Unpaid facility obligations remain open for three years.

 - a) An adjustment to the offender's/resident's current payroll must be completed; or
 - b) The payroll in error is reversed and processed correctly; or
 - c) A miscellaneous receipt and obligation is established if there are insufficient funds in the spending and/or voluntary savings accounts to reverse an overpayment.
- B. Deductions are processed according to section 300.1009.
- C. Interstate Program
 1. In accordance with the guidelines regulating prison industry enhancement certification programs (PIECP), MINNCOR staff must collect the Voluntary Agreement of Participation Private Sector/Prison Industries Enhancement Project form (attached).
 2. Offenders may be subject to federal and state back-up withholding if the facility does not have a valid social security or tax identification number on file.
 - a) Financial services staff review offenders in the Interstate Program for social security numbers. Financial services staff must notify the offender's payroll supervisor if a W-9 is needed for an offender. If a social security number or tax identification number (TIN) is not provided, financial services staff add back-up withholding to the offender's account.
