DEFINITIONS:

Imprest cash funds – an account that is maintained for minor cash or check disbursements. It is periodically restored via transfer to its original amount from the cash account of a sum equal to the total disbursements. At the end of the fiscal year, the account is restored to its original balance.

PROCEDURES:

- A. Imprest cash funds may be established from existing appropriations, with prior approval from the Commissioner of Minnesota Management and Budget (MMB), for the purposes of making minor disbursements (up to \$50), providing employees with emergency travel advances, or with a portion or all of their payroll warrant when the warrant has not been received through the payroll system, and for offender/resident-related disbursements. Disbursements that are not subject to the \$50 limit are listed in procedures below.
- B. General guidelines
1. Financial services staff submits a written request to establish an imprest cash fund or to increase the amount of an existing imprest cash fund to the department executive budget officer according to operating policy and procedure 0606-01.1 in the statewide integrated financial tools (SWIFT) operations manual. To reduce the amount of an imprest cash fund, financial services staff must follow operating policy and procedure 0606-01.3 in the SWIFT operations manual. Additional instruction is available in the DOC Imprest Cash Reduction Step-by-Step form (attached). All requests for changes to imprest cash funds are submitted to central office financial services for approval and then sent to MMB.
 2. Financial services staff are notified of the status of the request in writing (approved/disapproved), as supporting documentation. This documentation must be attached to the copy of the request.
 3. If the request is approved, financial services staff process the payment and deposit the warrant in the checking account or retain in petty cash, as authorized.
 4. Authorization and reconciliation of transactions
 - a) MMB accounting policy and procedure 0606-01.2 outlines procedures for the use and reimbursement of imprest cash funds.
 - b) Employees who do not process imprest cash transactions and are not responsible for writing checks are authorized to sign checks. All financial services units must maintain a list of employees authorized to sign checks.

- c) Imprest cash funds are reconciled monthly by an employee other than the person responsible for writing the checks. The employee reconciling the account must sign the reconciliation. Bonding for state employees is not required per Minn. Stat. §574.205, except when federal law or rule requires bonding as a condition precedent to receiving federal grants. Reconciliations are retained according to the finance retention schedule.
 - d) Central office financial services maintains a listing by fund and appropriation of all department imprest cash funds.
5. Stale-dated checks
- a) All imprest fund checks are considered stale-dated after 180 days.
