Effective Date:	11/29/22

PURPOSE: To provide procedures conducting comprehensive assessments by trained staff for individuals who are incarcerated in a correctional facility in order to aid in case planning and reentry planning.

APPLICABILITY: All correctional facilities

DEFINITIONS:

Comprehensive assessment – an assessment completed following an interview with a qualified counselor to review a person’s substance use and its impact on their daily living. The assessment must provide a current and accurate assessment of a client’s needs that relate to substance use and personal strengths that support recovery in an effort to access/authorize treatment services.

PROCEDURES:

- A. Assessment purpose and requirements
 - 1. A comprehensive assessment for release planning purposes is conducted with a client seeking access to substance use disorder (SUD) treatment services in a community-based treatment program.  - 2. A caseworker, agent, client, or other source may make a request for a comprehensive assessment for reentry purposes. As resources allow, comprehensive assessments may be conducted by qualified staff. Facilities may create procedures to determine the request and approval process.
 - 3. The assessment must be done in a language the client understands. The department provides interpreters for the hearing impaired and foreign language services, when necessary.
